The majority against Harlan, however—1,700— is a little too large for the Republicans to overcome. If they fall to capture the solid negro vote, hereafter, they will have no great trouble in accounting for it.

The United States officials not long ago got their hands on George Q. Cannon, one of the most prominent elderagiof the Mormon Church. Cannon was wanted for a violation of the Edmunds law—practicing the polygamous doctrines of his church. He made several unsuccessful attempts to escape from the officers at the time of his arrest, and his bail bond was therefore placed at the sum of \$25,000. It now turns out that this amount was not sufficient to hold him, as he has disappeared and forfeited his bond. The Government is \$25,000 better off, and has at the same time disposed of the illustrations and at the same time disposed of the illus-

The Knights of Labor, a new organization, is playing hob with commerce all over the union. Fifty thousand men are striking for higher wages—as well as for general cussedness. Wages have not been reduced anywhere, but here is the cause of all the trouble: Three weeks ago, the laborers in Stetson's hat manufactory in New York, made some demand from their employes which was not acceded to, and they struck. They then gave orders for the brotherhood at large to boycott all the big houses selling Stetson's hats—also, to boycott all the rails. from their search and they strates, and gave orders for the big houses selling Stetto beyout all the big houses selling Stetton's hats—also, to beyout all the railing roads and steamships that would haul them. Everything indicates that a roigh of terror stares the nation in the face at no distantal, and that the strong arm of Federal power will have to enact such laws as will squelch a spirit of communism.
